Silver Bullion Becomes Registered Bullion DNA Dealer with the Royal Canadian Mint

- **Bullion DNA is a further endorsement of Silver Bullion as a trusted dealer**
- **Complements Silver Bullion's own DUX bullion testing system**

SINGAPORE: Silver Bullion Pte Ltd (www.silverbullion.com.sg), one of Singapore's largest bullion dealers and precious metals storage provider, announced today that it is now a registered Bullion DNA dealer with the Royal Canadian Mint (RCM). This makes Silver Bullion only the fifth registered Bullion DNA dealer with the RCM in Asia.

The Royal Canadian Mint's gold and silver Maple Leaf bullion coins are known around the world for their iconic design and unsurpassed purity. They are also the world's most secure bullion coins thanks to security features like advanced engraving, laser-marking technology and precision radial lines.

The Royal Canadian Mint's Bullion DNA (Digital Non-destructive Activation) is a fast and easy to use tool, that allows approved Bullion DNA dealers to verify the authenticity of their customer's gold and silver Maple Leaf coins in just seconds.

"Silver Bullion has been retailing the Royal Canadian Mint's gold and silver bullion products for many years now. We have sold more than 2 million troy ounces of RCM bullion coins and bars," says Silver Bullion founder Gregor Gregersen. "The Bullion DNA program is innovative and increases the awareness of customers regarding the need to buy gold and silver bullion from trustworthy dealers. Becoming a registered Bullion DNA dealer with the mint is a great endorsement for Silver Bullion. Authenticating bullion is not new to us, we have tested countless customers' bullion bars and coins with our own DUX bullion testing system."

Silver Bullion has been a forerunner in non-destructive gold and silver bullion authentication in Singapore since 2011. The company's DUX bullion testing ensures a high degree of reliability by combining three methods of testing – density, ultrasound and X-ray fluorescence. Precious metals that customers bought from other sources are authenticated using DUX bullion testing before they are accepted for storage in Silver Bullion's vault.

Silver Bullion's precious metals vault, [The Safe House](#), has the capacity to store 630 metric tons of tax-exempt precious metals. Singapore government agency, IE Singapore, lists The Safe House as one of the two world-class vaults in Singapore.

###

SILVER BULLION OVERVIEW

Established in 2009, Silver Bullion Pte Ltd offers advanced systemic wealth protection solutions within exclusive Singapore jurisdiction. Silver Bullion Pte Ltd procures, authenticates and buys back physical investment grade precious metals. The company also stores precious metals for customers at *The Safe House (TSH)*, a world class, 630 ton capacity vault in Singapore.

The Safest Place For Your Silver And Gold

Our focus is to provide the safest place to store silver and gold by addressing the legal, jurisdictional, counterparty, insurance, authentication and physical security issues which will become critical during a systemic financial crisis.

Silver Bullion Pte Ltd, having more than 350 Million SGD in total revenue, was ranked 33rd among Singapore's E50, which includes the most enterprising privately held firms in the city-state according to KPMG and *The Business Times*.

Our Storage Vault

Our ISO 9001 certified vault can hold over 600 metric tons of silver, representing over 1 percent of Global Known Above Ground Silver Reserves, and 30 tons of gold and platinum. All S.T.A.R. Storage parcels are stored at TSH, which also hosts vault safe deposit boxes.

TSH has received excellent insurance inspector ratings enabling us to have one of most comprehensive insurance policies in the industry (through a Lloyd's underwriter), including protection from inside jobs (infidelity) and even unknown cases (mysterious disappearance).

GREGOR GREGERSEN

Founder and CEO

Gregor Gregersen is the founder and CEO of Silver Bullion Pte Ltd and its subsidiary, the Safe House SG Pte Ltd. Originally from Germany and having lived all over Europe and US, Gregor understood how dependent the Western world has become on money printing to fund otherwise unsustainable debts. It led him to seek permanent refuge in Singapore and found Silver Bullion.

As CEO of Silver Bullion, Gregor leads the team to ensure that all legal, jurisdictional, counterparty, insurance, authentication and physical security issues are addressed so as to provide bullion owners the worldwide safest place to store silver and gold.

Prior to founding Silver Bullion Gregor was a Senior Data Architect for Commerzbank AG and a Senior Business Intelligence Consultant for major MNCs. He holds a plethora of programming and project management certifications as well as US University degrees in Finance, Economics and Information Technologies. He is a father of one and is in the process of obtaining Singapore citizenship.

OTBERT E. DE JONG

Advising Shareholder

Otbert de Jong is an advisor to the board of Silver Bullion. With his background in financial services he has particularly supported Silver Bullion in the development of the peer-to-peer lending platform.

His knowledge and experience with lending and risk management has helped to ensure that the platform is robust and meets standards that are in line with requirements in similar innovative environments.

Otbert is a former banker turned tech investor and entrepreneur. After spending the best part of his career in multinational banking and consulting environments, he decided to capitalise on his experiences and insights and to get involved in several technology firms. These have a common theme in that they all use technology to create more transparency, improve choice, enhance engagement and enable elevated levels of trust.

He has held senior international positions in banking (EVP at ABN AMRO Bank) and consulting (Partner at PricewaterhouseCoopers) and obtained his MBA from Bradford University.
